

VENTED & NON-VENTED SOFFIT

The soffit or inverted panel covers 36 inches and is composed of five inverted ribs at 5/8 inches tall and 9 inches on center. The stiffener ribs between the major ribs are symmetrical with the flat areas to provide an attractive appearance. Vented Soffit provides 9.64 square inches of airflow per one lineal foot. This panel can also be used as an inverted siding panel.

Available in both zincalume and pre-painted zincalume steel, the paint coating is a durable baked on Silicone Modified Polyester (SMP) finish and is available in the colors listed below. The SMP conforms to ASTM D 523-89, ASTM D 2247, ASTM B 117, ASTM D 4214, ASTM 2244, ASTM D 3363, ASTM D 2794-93, and ASTM D 4145-83 properties.
